## Details of incident or rule infraction

On April 18, 2014 at approximately 1800 hours, I, DC61/Metcalf arrived at the West Sub Control station at the Gallatin County Detention Center for shift change. At this time I was briefed by DC56/Powell that an Inmate in D Pod had given him a note that said "Hey Briggs needs help make him take the blanket off look at his neck".

At approximately 1900 Inmate Borland/24469 approached me and asked if he could give Inmate Briggs/29033 a note of encouragement that mentions a Bible verse for him to read. I reviewed the note and allowed him to give it to Mr. Briggs because I understood that he was depressed.

At approximately 2000 hours I entered D107 to speak with Mr. Briggs. He had a blanket over his head and around his neck. The blanket was concealing everything but his face. I asked him how he was feeling because I had read the note earlier and knew that he was depressed. I also asked him why he had the blanket over his head. He told me that "Yes, he was feeling depressed because of his situation". He also said "He felt as if he was getting sick and was extra cold". I asked him to please show me underneath the blanket. He was very hesitant to do this. At first he only pulled it down so it was still covering his neck. I told him that I needed to see his neck as well. He then removed the blanket and I saw a red mark that went across his neck and the full length of his jaw. At this point I told him that I want to move him to booking so that he could be put on observation while I talked to DC28/Sgt. Gunnell and did more investigation into what happened.

Once he was escorted to HCL 3 I returned to his cell D107 to search it and see if I could find what he could have potentially used to create the mark around his neck. In his cell I found a bed sheet that was tied in a knot (which Mr. Briggs later told me was to keep the sheet attached to the bottom of his mattress). I also found a note that Mr. Briggs had possibly written that stated "I fear death but I fear a wasted life even more."

Upon completing the cell search I returned to booking to tell Mr. Briggs that I would be placing him on Suicide Watch until CRT could come and speak with him. I then took him to the Booking changing room and had him put on a smock. I then escorted him back to HCL 3 where he stayed until CRT came.

I have nothing further to report at this time.

Action Taken Moved to booking until cleared by CRT

**PRESENTING PROBLEM (Referral information and sx):**

Found this evening with ligature mark on his neck, a sheet tied at the corners, and at least two notes from other inmates expressing concern for him, also his own writing which may be of concern. Moved to HC, has made several phone calls, has been very cooperative.

**HISTORY OF PROBLEM/ ILLNESS**

See file. In jail with multiple felony charges. There was some concern when he arrived (from custody in WA) about a month ago that he had suicidal thoughts. He has had a couple of contacts with MH, not getting regular services. He reports he receives Buspar in morning and evening med passes, received a little while before my visit..

Collateral with Officer who raised concerns. Two inmates have written notes expressing concern about pt. Pt yesterday and today had towel or other material wrapped around his neck, officer asked to see tonight and saw mark. Pt also had sheet tied at corners, it does appear done to keep sheet fitted to mattress better. There are many notes in pt's cell, he writes, and not all have been read, but one small piece states fear of death and also fear "of a wasted life". Tonight, among phone calls pt made after being moved to HC, one was with a friend who ended up asking if pt was suicidal, pt replied "What if I am" and something like wouldn't that be understandable.

**MENTAL STATUS SUMMARY:**

Pt is alert, oriented and cooperative. He has a prominent, rather thin (1/4 inch wide) ear-to-ear red mark on his neck. He allowed me to look at it, first said he scratched himself when he was feeling like screaming in his cell. States he gets very anxious later in the day, most days, and he did this yesterday. He did not respond to my comment that it did not look like a fingernail mark, was quiet then changed the subject. Stated he had good talks with his father, stepfather and grandmother tonight, he feels "spoiled" that he has family there for him; gmo is supposed to visit on Monday, 04-21. He identifies some hope about his case from talking with his attorney. I asked him again about his mark, was deflected, then asked again. He finally stated a more believable story that he had used his T-shirt collar and pulled it hard, though it also could be he used another mechanism. In either case, he apparently stopped and did not repeat the act in the day since. It is possible he was testing. He admits he has hard time at that time of day but he has coping skills (reads, writes, exercises) and can keep himself safe, he does not want to die. He wonders if he could split his buspar doses into three so that he wouldn't have that period of difficulty before evening med pass; I suggested he kite medical and mention it to the nurse.

## Details of Incident or rule infraction

I, DC48/ Officer Patterson was working at the Gallatin County Detention Center at the Sub-Control West Post, when at approximately 2238 hours. I found Inmate Briggs #29033 on the floor in cell D-107 unconscious, face down, unresponsive while conducting a round. I then called for an additional officer for assistance to D-pod, to which DC/24 Corporal Caball had responded. We entered D-107 and I had noticed that Inmate Briggs had stood up on his own power; he was then escorted to medical at 2240 hours. Nothing further to report.

Single (never married) White I'm not doing so well. Well, I—uhm—attempted suicide and failed and woke up and went into the day room and woke up in the hospital. I cut 2 arteries and a vein, when that failed, I sliced my tongue open.

**HISTORY OF PROBLEM/ ILLNESS**

Kevin was seeing Edwardo Duran for therapy. He denies any other counseling or treatment experiences, including hospitalization for emotional problems or substance abuse issues, including hospitalizations for emotions or substance abuse issues. He was seen by the CRT last fall and another CRT member last month (see those notes for details).

**MENTAL STATUS SUMMARY:**

Sleep: sucks—due to his anxiety and has problems with both—but since the BuSpar, I can get high for a little bit. But I have been hiding them for about 2 weeks, but it does not help me. Appetite: inconsistent—lately less strong than before. Weight loss/gain: hell if I know. Guilt/Worthlessness: denies. Memory: pretty good. STM: yeah. Blackouts: denies—passed out from an anxiety attack though. Energy level: ok, but now feeling like he might have bled too long in the last 24 hours or taken too much medications. Social life: I am in jail, what kind of question is that? Actually, I am not a total dweeb in here and I do talk to some of the other inmates and my family. Concentration: ok. Anhedonia: not been exercising here lately and unsure how long it will be until he can exercising. Hopelessness/Helplessness: yeah—as a matter of fact, I do have those in jail. If I am lucky, and the truth will come out and I will be released back into society. I think I have pretty much screwed up my life though. Suicidal: Denies any current ideations, plan, or intent. As for prior history, he reports 3-4 previous attempts—overdosing, hanging himself, and recently trying to cut blood vessels. Self Harming Behaviors: Denies any prior self harming behaviors. (made a joke in his response) Homicidal/Violent: Denies any ideations, plan, intent, or history. Ability to Care for Self: I am doing ok—I stay in touch with my family, stay well fed, and stay in touch with my family. Psychosis: Denies Appearance: thin young man with short dark hair and wearing a green. jail no harm safety turtle shell. Behavior: Pleasant and cooperative—good eye contact and joking at times in an arrogant manner. Orientation: is orientated to person, place, time, and circumstance.

Medications: BuSpar (anxiety) 15 mg Bid, Loratadine (allergies) 10 mg HS, and ibuprofen (headaches) 2-200 mg Bid prn from the medical staff in jail. History of Psychotropic Medication: was previously on tricycles and SSRI's. He did not like the Paxil or Zoloft.

Alcohol Use: has not drank since January, when he was on the run and would have a couple beers. He has found that if he drinks more than 2-3 drinks, his experience goes down.

Other Drug Use: Opiates, Benzos, and marijuana.

Family History: Denies any chemical dependency issues in his family. Mom and maternal grandmother have problems with anxiety.

## Details of incident or rule infraction

On the above date and approximate time, I Officer Taylor was in the west program room. Officer Hoffman called for Officer Beausoleil to enter D-pod with him. I exited the room and went to assist. When we arrived I saw Inmate Briggs sitting at the table in front of the television with his head down. Hoffman tried to get Briggs to respond but was unsuccessful. It was decided that we were going to move him to booking. I placed handcuffs on his right arm and when I grabbed his left arm I noticed there was a laceration on his left wrist. I called for medical and other Officers to respond. Once everyone responded I entered his cell; D-107. I took pictures of blood and articles of clothing with blood on it. The articles were logged and placed in evidence by Officer Flohr and Clark. When Bozeman Fire and American Medical Response (AMR) arrived on scene it was determined that Officer Hampton and myself would ride up in the ambulance. Deputy Quinella rode with us as well. When we arrived at the hospital Briggs began to communicate with us via a pen and paper (Paper attached to report). I asked Briggs what he used to cut himself with and he told me he would need to speak with a lawyer before telling me. While we were there Briggs was scanning the area the entire time. He also asked to keep the pen and paper if he promised to be good. That request was denied. He refused a X-ray when offered one. Inmate Shoulderblade had told me prior to leaving the Detention Center (DC) that Briggs believes he is Native American and is currently doing a Native American fast. Shoulderblade said that with those fasts it is common to swallow a foreign object. It is unclear if he did swallow anything. He has currently refused the last 4 meals. When we were transported back to the DC, Briggs was constantly looking around and watching what route we took. He also mentioned that he was trying to kill himself and he made the cuts at 5am the previous morning (5/7/14) he still refused to tell me what he used and where that object was at. There is nothing further to report at this time.

## Details of incident or rule infraction

On May 8, 2014, I, Officer Beausoleil, was working the West Housing post. I was in the West Housing programs room with Sgt. Lower, Officer Taylor and Officer Hampton for a disciplinary review. At approximately 0815 hours, Officer Hoffman called for me to assist him in D-Pod because Inmate Briggs was sitting at the middle day room table with his head down on the table. Officer Hoffman, Officer Taylor and I entered into D-Pod and I instructed all inmates to lock down. I secured all the bottom tier cells in D-pod and Officer Hoffman secured the top tier. Inmate Briggs continued to stay seated with his head down on his left arm resting on the table. I asked Briggs "what's going on?" Briggs didn't respond. Officer Hoffman started to talk with him and nudging his shoulder to see if he would respond. I called over the radio to see if we had a camera cell that we can house Inmate Briggs in. Officer Greydanus stated that he only had holding cell 6 available. I then went to the West Sub control to call Officer Greydanus to see if we could get a cell with a camera available for him. During that time, Officer Taylor was attempting to handcuff Inmate Briggs and when he got to his left arm he observed an open wound on his left wrist and called for medical to D-pod. I locked down the West side housing units. When I entered back into D-pod with a set of leg shackles and a belly belt to secure him, I observed a small open wound on the inner part of his right elbow. I secured inmate Briggs with the leg shackles and belly belt, then cleared the pod. There is nothing further to report.

On May 7, 2014, I, Officer Beausoleil, was working the West Housing post. During D pod visiting hours Inmate Briggs declined to have a visit with his mom. Then at approximately before lunch time, Inmate Allred came out of D-Pod asking if he could eat Inmate Brigg's lunch tray because he wasn't going to eat it. I asked why Brigg's wouldn't eat his tray. Inmate Allred stated that he was fasting for religious purposes. During meal pass, I asked Inmate Briggs how long he planned on fasting for and he stated just a couple days. I told him if he needed to talk with anyone to let one of us know. Inmate Briggs stated that he was okay. At approximately 1500 hours, attorney Watson came into the facility to meet with Inmate Briggs. When I asked Inmate Brigg's if he wanted to meet with him and he stated no. I informed Watson that he wasn't going to meet with him. Watson asked me to let Inmate Briggs know when he is feeling better to just have him call him. So I did. For shift briefing, I informed Sgt. Eckhardt for the next shift to keep an eye on Inmate Briggs because of this behavior.

Briggs (D Pod) – Was cleared by CRT had some ligament marks on his neck this weekend. See IR. MH will follow up again.

TEAM Meeting  
04/28/14

Briggs (D Pod) – Do for reclass 5/1 and he has been asking to move cells. Maintain in same cell in D Pod even if reclassified (he has been asking to move).

TEAM Meeting  
05/05/14

Briggs (D Pod) – stays in same cell.

Team Meeting  
05/12/14

Briggs (Booking/SW) – Suicide attempt last week, he cut his underarm, elbow, wrist, and tongue. Passed out while in pod, had to go to ER for care. He has been earning items back, mattress, one book, and inmate uniform only (no undergarments). Next step team agrees to;

Extreme caution! Do to escape risk.

Officer standby for shower.

Hour out in rec yard.

Hygiene items given for use only and taken back immediately.

Spork given with meal then taken back immediately.

Phone use during hour out only.

Will again next week.

TEAM MEETING  
05/19/14

Briggs (Booking, Obs) – No issues but he was throwing out meals, officer spoke with him and he is eating again. He has not been fully cleared by CRT. If we were to house him A Pod would be isolated which would have a negative impact on his MH. Move him to a non-camera cell in booking and allow him some rec with D Pod and programs with D Pod. Miller will call CRT for final clearance from camera cell. NO RAZOR. Will allow undergarments today and hygiene items Thursday if CRT is ok with it and no incidents.

TEAM Meeting  
05/27/14

Briggs (Booking) – We had a Native American “Spiritual Advisor” stop by Thursday asking to give a book. He will be advised it must come in from a publisher. He does not have the credentials to meet 1:1 so he will have to use visiting. What is our next step in his plan? No incidents this past

 Emergency Consultation Summary  
 (ver.. 01142013-00-sans22)

Date: 5/14/14 Initial Contact Time: 1pm<sup>i</sup> Location: 45 Bozeman GCDC

Client Name: KEVIN A BRIGGS Client ID#: 201926 Age: 28 Gender: male

**PRESENTING PROBLEM (Referral information and sx):**

Jail staff call CRT to evaluate client who is in booking follow suicide attempt last week. He has reportedly been manipulative and unable/unwilling to follow rules in booking. "I am stuck in here all day long. I only get a bible. This is not my religion. This is the only book they will give to me."

He was in D-pod until his last suicide attempt approx.. one week ago. "I really liked being able to interact with other human beings. I also liked having more than one book in my cell. I am pretty sure that they are actually trying to punish me under the guise of safety and security." He had been in D-pod for about 6 weeks prior to his suicide attempts.

He reports he has had panic attacks "since coming to jail" for this last time.

**HISTORY OF PROBLEM/ ILLNESS**

Collateral: Sargeant Miller reports that client has been "manipulating" the system and has not always been compliant in the booking cell. Other deputies also state that client is "smart" and "manipulative".

**MENTAL STATUS SUMMARY:**

"I was living in Bozeman. They are trying to give me 145 years. Well yeah, I embarrassed them."

"I would be a lot fucking saner if I could get a decent book to read. Nobody's given a crap about my feelings or my sanity. They are doing things that are unpleasant that don't keep me safe that make my hellish life worse."

"There is no such thing as good attention in jail."

**Suicidal-Twice** before last year he attempted to overdose with pills. He said he tried to hang himself while he was in jail about a month or two ago.

He denies current suicidal ideation but says "being dead would be better than being here but being in D unit would be better than being dead."

"I quit taking the medication they were giving me because it didn't work." He was not on medications before he went to jail beyond taking some anti depressants as a teenager. "I could kill myself in here." "If they keep treating me like this, I would rather be dead." Client denies current suicidal ideation but his statements suggest he may become hopeless and suicidal soon if he is not allowed to have a book other than the bible or to have human contact. Staff report he is very "manipulative" but his suicide attempt appears to have been a genuine attempt to end his life.

Client appears oriented x 4.

**DIAGNOSTIC IMPRESSION: ("\*" denotes primary dx)**

Axis I: Adjustment disorder with mixed disturbance of emotions and conduct.

Axis II:

Axis III:

Axis IV: Legal problems, incarceration.

**Recommendation / disposition:**

CRT asks sheriff deputies if client can have a different book. They report he has engaged in numerous behavioral infractions leading them to create more restrictions.

Client does not appear to be imminent threat to harm himself but he does suggest he might soon become suicidal and states that he is capable of ending his life in the booking, camera cell.

CRT recommends that client remain in camera cell in booking.

CRT talks with client about meditation and tries to work with awareness that client will move out of booking within the next week if he can continue to follow jail rules.

CRT will return to evaluate client as needed when jail staff call.

**Progress Note<sup>8</sup>:** Pt being monitored in HC for the past week after suicide attempt. There have been some behavioral interventions and restrictions. He has one hour phone/day with monitoring. He was observed flushing food, water was off but is now back on. Today he is in HC with orange uniform, 3-4 books, water on. He reports he receives no medication now, has not seen provider despite his kites.

Pt mood appears stable. He is reading a Reincarnation book, states he likes to think reincarnation occurs, refers to suicide as not being an answer if you have to return to deal with same issues anyway. I questioned him about goals vs just wasting away in detention or suicide; he voices a desire to accomplish and contribute something, even from jail/prison and that some books he reads are purposeful that way - "studying" - and some (novels) are just for coping/distraction. He states that his flushing of food was an act of food "sacrifice", referring to the bible and other cultural practices through time of sacrificing food as an act of prayer. He awaits Monday meeting for possible next step down toward population.

Maintain as is. Will plan to revisit on Monday.

Progress Note<sup>6</sup>: Pt has been in HC booking for about 2 weeks after suicide attempt. Has had books and outer uniform for a few days. GCDC team meeting today, they have identified plan to take graduated steps to return Pt to population. Today they hope he can move into non-camera cell, have rec with hi-security side, have undergarments back, Would then get more on 05-22.

Pt appears more tired as days have progressed. I informed him of plan and he mostly complained that it wasn't much different and the only groups available would be fundamentalist Christian oriented, not his thing (though at that point not sure he knew we were also talking rec time). By way of complaining, he also notes he could have figured a way to kill himself in HC to indicate that caution is not really that meaningful. I noted that it is hard to trust him for safety, and for some good reasons. In the end he accepted things as they were and wished me a nice day. He talked to Sgt Miller when we finished and happened to have rec available at that time, and he used it.

Briggs (A Pod) – Eilissa received a phone call from his father with concerns over isolations. Briggs is refusing to work with our MH staff. Eilissa asked if Stef can please review again MH medications. Eilissa believes a double bunk would be the safest option for him if we can find the right cellmate. His history does lead for concern. He did receive another write up on the 11<sup>th</sup> and it out of L/D on 7/7/14.

## Offense Details

On June 7, 2014, I, Sgt. Slyngstad was informed of a missing razor by Officer Burch. Officer Burch informed me that Inmate Royster (#29889) had a razor on his property and when he went to retrieve it, the razor was missing. Officer Burch then informed me that he later found the razor rolled up in inmate Briggs' (#29033) underwear.

I first asked Royster if he had passed a razor to Briggs. Royster denied passing a razor to Briggs at which point I informed Royster I would review video footage. After viewing video, it clearly shows that at 1452 hours inmate Briggs picked up Royster's razor and moved it back to his cell.

Inmate Briggs is being written up for 2 major rule infractions: Major 3: MJV.00.03e: Tools and a Major 2: MJV.00.02i: Misuse, destruction or defacing property of the detention center or inmate's.

## Offense Details

On June 11, 2014 at approximately 0720 hours, I, DC Officer Greydanus was working at the Gallatin County Detention Center when I let inmate Briggs, Kevin (29033) out for his hour out in A pod. About a minute later Central Control (Officer Taylor) called over the radio that inmate Briggs had passed something to inmate Allred, Andrew (29292) in A101. I went into A pod and immediately asked inmate Briggs what he and inmate Allred had passed to each other. He said that it was a book. I asked to see the ones he had in his hands. I paged through them but found nothing. I asked him why he was passing things under the door. He said something like, I didn't know we couldn't. I told him to go lockdown for the remainder of his hour while I did some investigating.

I went to A 101 inmate Allred's cell and asked him what was passed between inmate Briggs and himself. He told me that he had given inmate Briggs a book. I asked him how long he had been in the facility. He said for a couple of months. I asked him if and when he had read his inmate manual; where it states not to pass anything or have unauthorized communication of any type, ie. notes or books from one inmate to another. I told him he would receive a write up for his actions. After doing some investigating, I went and talked to inmate Briggs to explain that I could take his hour out away if I felt that this incident was a facility safety and security issue. I told him I didn't think it was, so he would be allowed his hour out, but that he was receiving a write up for his actions.

This incident of passing a book between two locked down inmates in A pod violates the Inmates Manual Section 22 letter F of unauthorized communication of any type. ie. hand gestures or notes I have nothing further to report at this time.

Mr. Briggs,

At this time your razor privileges are still suspended. Choices you have made have led to the loss of this privilege. An officer will not stand by to allow you a privilege you have abused. Your trial date is still a ways off so there are not any disadvantages in court. As to your trial date, you may request a written order from the Judge to accomodate shaving; but not until that time, and there is no guarantee the Judge will grant it.

Respectfully,

SSgt. Young

### Details of incident or rule infraction

On July 17 2014 at approximately 1600 hrs I, Officer Matthew Porter DC51, was working west station and while conducting a round in Dpod noticed Inmate Briggs, Kevin #29033 had a black eye. I called him out of Dpod saying he had an interview and brought him down to talk with Briggs. Briggs would not talk about what had happened to his eye except when I asked him if he did it to himself he said "No".

I told Briggs that we would be looking into the matter.

I talked with Briggs 7/16/2014 at approximately 1400 for about five minutes during hygiene exchange and he did not have anything wrong with his face.

Briggs did not come out of his cell for breakfast or lunch on 7-17-2014.

I inform my shift SGT. Eckhart DC18.

I asked Briggs if he needed medical attention. He said, "no thank you"

Action Taken I offered medical attention. I asked if there was anything we could do or who did it.

Recommendation Check video and interview other inmates in Dpod

## Details of incident or rule infraction

On September 3, 2014 I, DC61/Metcalf was working the West Sub Control Station at the Gallatin County Detention Center. At approximately 1230 DC34/Hartsell told DC33/Taylor and I that while doing a round in E POD she noticed blood on the bed sheets that belonged to Inmate Briggs/29033. Officer Taylor and I immediately went into Briggs's cell E201 to investigate. Upon entering the cell Officer Taylor began questioning Briggs about the blood that we could see on his bed sheets. Briggs informed us that he has bad allergies and routinely gets bloody noses. Officer Taylor asked to see both of Briggs's hands and then I asked to see the inside of his mouth. Neither of which appeared to have any blood on them. Officer Taylor and I then exited the cell, I then exited E POD and left the West Side of the facility entirely.

At approximately 1345 I returned to the West Sub Control Station. I spoke with Officer Taylor and Officer Hartsell and told them that we had forgotten to check in-between Briggs's fingers and toes for open cuts or blood. I then returned to E201. I did another inspection of his bed sheets and bedding materials. I then asked Mr. Briggs to show me in-between his fingers and toes. I did not see any open cuts or blood in either place. I then asked to see Briggs's arm pits. I did not see any wounds there either. At this time I returned Briggs to his cell and went to the East Sub Control Station where I called DC18/Sgt. Eckhardt and informed her of the situation. She instructed me to tell Officer Taylor to do a strip search and cell search of Briggs. I relayed the message to Officer Taylor. I have nothing further to report.

On 11-8-2014, I, DC Moorhead was working the West Side at the Gallatin County Adult Detention Center. I entered E Pod to conduct hygiene pass. Inmate Briggs is currently not allowed to be in the day room with other inmates while razors are in the pod due to safety and security reasons. Inmate Briggs was told to lock down, in which he slowly gathered his belongings, and continued to talk to other inmates. He continued to move slowly up the stairs and entered his room without shutting the door. I waited a bit longer, in which Inmate Briggs came to the entry of cell, continuing to move slowly, which was interfering with my hygiene pass. I then told Inmate Briggs to again lock down. Inmate Briggs stated, "You need to calm down," and slowly shut his door. Inmate Briggs will be on lock down in E Pod for 23 hours for disrespect. His lock down will begin 11-8-14 at 1130, and will end 11-9-14 and 1030. Nothing further to report.

On December 31, 2014, I, DC49/Officer Pengra was working on the west-side of Gallatin County Detention center. I had allowed the inmates on the west-side to keep their pod televisions on and their cuff ports open in observation of New Years Eve.

At approximately 2245 hours, I was conducting a security round through E-pod. I noticed wads of wet toilet paper thrown onto the pod floor. Inmate Kevin Briggs (29033) confessed he had been throwing the paper wads. I turned off the television and locked all of the open cuff ports.

Inmate Briggs will be on 23-hour lock down with his hour out in the morning. Inmate Briggs will come off of lock down January 1, 2015 at 2200 hours. Inmate Briggs is expected to clean up the mess he made with the paper wads during his hour out.

On February 9, 2015 at approximately 2040 hours I, Officer Hartsell (DC34), was conducting a round in D Pod when I was approached by Inmate Briggs, Kevin (Inmate #29033) inquiring about going to recreation. Briggs stated that he could not attend rec earlier because he had been locked down during razor pass. However, the shift log indicated that rec had been offered twice to that pod. In addition, Briggs had been persistent in inquiring the status of his question to both myself and Officer Hampton (DC53) in person and over the intercom for approximately two hours. Earlier in the shift I had been told by Sergeant Gunnel (DC28) and Officer Hampton (DC53) that if Briggs inquired one more time about rec that he was to be locked down, since his inquiries had already been addressed. His persistent use of the intercoms presented a safety and security hazard and took officers away from more urgent matters in the facility. Briggs is being charged with a minor rule violation, MNV.S.22, Detention Center Safety and Security. Briggs will be locked down for 23 hours. Nothing further to report.

On February 21, 2015, I, Officer Beausoleil, was working as the West Utility Officer. At approximately 0950 hours I could hear loud voices coming out of D-pod. I watched Inmate Briggs walk into his cell standing by his door looking out towards the day room towards Inmate Steele's direction. Inmate Steele then walked into his cell pushed the Intercom from D101 where he was housed. Inmate Steele stated that Inmate Briggs was wanting Inmate Steele to enter into cell D106 to fight. I paged into D106 where Inmate Briggs was standing. I asked Inmate Briggs what was going on and he stated nothing. I asked if he was asking for Inmate Steele to enter into his cell to fight and Inmate Briggs stated no. I informed Inmate Briggs that if he was that he needed to stop. Inmate Briggs then came to the main D-pod D-1 door. I informed for the whole pod to lock down.

Act ☐ Taken

Kept on Lock down till further review into the situation going on between Inmate Steele and Inmate Briggs.

On 02-21-15 at approximately 0950, I, Sgt. Walliser/60 was made aware that Officer Beausoleil had to lock down the entire pod in Delta (Mediums), due to Inmates Steele and Briggs having a verbal altercation.

Within the following hour, I was given intel that there may have been actual physical fights in D-Pod during the month of February.

Video evidence shows that both Inmates Steele and Briggs were involved in a verbal fight on 02-08-15 at approximately 0645 hours and that in fact Steele did punch Briggs with a closed right fist once in the face right outside of D-101. Although Briggs did not assault Steele in any way, I am writing Briggs up for his role in instigating this fight and refusing to lock himself down, thus removing himself from the situation.

## Details of incident or rule infraction

On 02-21-15, I, Sgt. Waliser/60 had just received her briefing on D-Pod, Inmate Steele, and Inmate Briggs, which is listed below. Shortly thereafter Briggs contacted me on the intercom and stated he wanted to talk to me. I told him no and that he would have to communicate with me via the kiosk messaging system. Briggs then stated, "You wanna know what that fight was over, it was over the broom and the fact that Steele was sweeping his dirt into the dayroom." I asked Briggs if he could provide me with specific dates and times, so I could investigate his claims. Briggs stated, "Wed or Thurs last week the 11th, Steele split his lip and hit him three times by the phone around 8 pm." The video did show this and in fact Steele hit Briggs two times. Briggs also stated, "Steele was bullying him and assaulted him on Sunday the 8th at 6:45 AM." Video does confirm that Steele hit him once.

When I asked Briggs on Saturday 02-21-15 if he would like to press charges for these prior incidents Briggs stated, "No, I don't want to press charges! I'm upset that he got moved out of the pod." I spoke with Officer Powell and ask if he had asked Briggs recently if he wanted to press charges and he said he had and that Briggs again said no.

After reviewing video, I went to D-Pod to speak with Steele. I asked Steele if he remembered when I wrote him up a few weeks ago and told him that I had video of him then and that I have video footage of him assaulting an inmate and Steele replied, "You don't have video footage of me hitting anybody today you don't." Steele followed up by saying, "We was just horse playing Sarge." I asked Steele if he normally punches people while horseplaying? When Steele was in A-104 I asked him if this was the only time that he assaulted that inmate and Steele stated, "That fucking rape-o has been taunting me!" I asked him again and Steele stated that, "I only pushed him away from the phone that one time." I told Steele that we both know it happened more than once and Steele replied, "I hit him like whop, whop, whop."

In regards to Briggs, I don't have video evidence of him assaulting Steele. However, in all of the video footage it appears as though Briggs is continually challenging / taunting / harassing, or inciting a fight between him and Steele. Instead of creating distance, locking down, or notifying staff those days when the problems were occurring between the two, Briggs created a physical fight stemming from his words. On 02-20-15 at 2025 hours, Briggs was being rude, disrespectful, and insulting towards Steele by throwing food at him, yet again instigating another situation where a fight could have resulted.

Below is the incident report from Officer Beausoleil describing the grounds for locking down all of the medium classed inmates in D-Pod on Saturday 02-21-15:

On February 21, 2015, I, Officer Beausoleil, was working as the West Utility Officer. At approximately 0950 hours I could hear loud voices coming out of D-pod. I watched Inmate Briggs walk into his cell standing by his door looking out towards the day room towards Inmate Steele's direction. Inmate Steele then walked into his cell pushed the Intercom from D101 where he was housed. Inmate Steele stated that Inmate Briggs was wanting Inmate Steele to enter into cell D106 to fight. I paged into D106 where Inmate Briggs was standing. I asked Inmate Briggs what was going on and he stated nothing. I asked if he was asking for Inmate Steele to enter into his cell to fight and Inmate Briggs stated no. I informed Inmate Briggs that if he was that he needed to stop. Inmate Briggs then came to the main D-pod D-1 door. I informed for the whole pod to lock down.

Below is an email describing some of Inmate Steele's recent phone calls:

Here are some excerpts from Steele's phone calls yesterday morning.

In one instance (2/22/15 at 10:03, 10m 50s) it is apparent he is holding a razor when he says, "(inaudible)...end all this shit. I've got the fucking tool right here in my hand." (2/22/15 at 10:35, 5m 25s) "I can't even tell you what I've already come up with, I've already plotted and planned what to do after the 2nd. And that's just a one day disaster for this place. They have no idea what kind of motherfucker I can really be."

In another instance (2/22/15 at 10:35, 6m 15s) he says, "If they come and take my canteen after they find me guilty on this, that's

gonna be the hard part for me, not to retaliate in some way." (2/22/15 at 10:35, 13m) "I'm struggling not to be a monster. These guys don't have any idea what kind of shit I can do." (2/22/15 at 10:03, 12m 40s) "...sons of bitches, they're not gonna get away with it. These motherfuckers better pray to god I have a change of heart when I get the fuck free this time."

Nothing further to report at this time.

## Details of incident or rule infraction

On Tuesday, April 14, 2015 at approximately 1635 hours, I Officer Eckhardt was headed through the west slider while Briggs, Kevin walked down the hallway being escorted by an officer. It was at this point that I saw Briggs had a black left eye. I finished the task I was doing on the west side of the jail and immediately reported to the Corporal/Sergeant Office where I spoke to Cpl. Lauchnor and Sgt. Slyngstad. I stated "I had just seen Briggs walk through the west slider to the computer lab and that he had a new black left eye since medication pass". When I escorted Nurse Young around the facility to pass medication Briggs, had stood in his window and asked for some medication. Nurse Young crushed Briggs' medication; it was poured into a paper cup given to him for medication pass. I did not see Briggs with a black left eye at med pass; medication pass was completed between 0930 -1030 hours on 04/14/2015.

On April 15, 2015 while conducting medication pass, I approached Brigg's cell D101. I asked "What happened to your eye?" He stated "I caught an elbow in the rec yard." I responded with "ouch that hurts".

No further incident.

End of report.

This report is a supplement to reports filed on April 16, 2015 by Corporal Lauchnor DC59 and Officer Eckhardt DC18, in regards to Eckhardt noticing a black eye on Inmate Briggs, Kevin #29033.

On April 18, 2015, I, Officer Kohler DC43 was working the West Housing Post at the Gallatin County Detention Center.

At approximately 1351 hours I was escorting Briggs down to the Law Library. When he came out of D-Pod I asked him what happened to his eye. Briggs told me it happened while playing basketball. Later, when Briggs was coming back from the Law Library, I overheard Briggs tell Officer Beausoleil DC35 the same thing.

On April 19, 2015 I was working West Housing again when Briggs had a special visit. After his visit was complete I listened to the phone record of his visit. During the call Briggs stated, "Don't worry about the shiner, somebody hit me in the eye a week ago on Monday." Briggs also told his visitor that we (jail staff) are putting him in places where he will get hit which it forces him to fight or defend his self, making him look bad in the process.

20150427BRIGGS

I, Cpl. Lauchnor DC 59, was working as a first line supervisor in the Gallatin County Detention Center on April 27, 2015. As part of an investigation into an injury sustained by Inmate Briggs #29033 that was discovered on April 14th I was reviewing additional footage from that time period. While reviewing footage from DPOD I observed Inmate Smith #31414 puff up his chest and lean down towards a seated Mr. Briggs while Briggs was eating his dinner at the dayroom table. Smith returned to his cell, D102, for almost a minute before coming back out, standing at his doorway and looking at Briggs. About 15 seconds after looking at Mr. Briggs, Smith set down his meal tray in his cell and charged Briggs, striking him once in the left eye. Briggs backed away from Smith after being struck and stood with the dayroom table between himself and Smith until Smith locked down. At this time Briggs took his tray to D101 and locked himself down.

Mr. Smith has been locked down in A203 pending disciplinary review. Briggs has been locked down in D101 pending disciplinary review. Both inmates are locked down for the following charge from the inmate manual:

MJV.00.01 Dangerous Conduct:

a) Fighting / Physical Force

Nothing further to report

I filed a grievance saying that I would like to appeal the findings of my writeup. I filed this within 24 hours of the time I received the writeup. Then I was told that I need to follow the procedure listed in the inmate manual. It says

The inmate may appeal the decision of any disciplinary action by submitting the appeal in writing within 24 hours of the conclusion of the Disciplinary Hearing to the Administrator or designee, who will review the findings for disciplinary action and render his-her decision.

I am unclear about what I should have done differently. Can you please clarify for me?

Mr. Briggs,

I've reviewed the reports and spoken to the disciplinary team regarding your grievance appeal. The disciplinary sanctions will not be overturned. In addition, based upon your recent behavior, administrative segregation is the best classification for you at this time.

Respectfully,

Regarding which issues I would like addressed in the appeal, I was not being rude or disrespectful, Ofcr. Eckhart's writeup was inaccurate and inappropriate, and asking me for protection is inappropriate when there is a pod for that.

## Offense Details

On July 2, 2015 at approximately 1915 hours I, DC61/Metcalf was working at the Gallatin County Detention Center (GCDC) and was stationed on the West Side when I noticed Inmate Briggs, Kevin Anthony/29033 grab something off of the floor that was passed under the door from the cell that belonged to Inmate Daems, Jeffery Allen/27400. When I approached Briggs and asked him what had been passed he gave me a ticket from a previous write up and said that Daems was reading it in his room and was only returning to Briggs. I continued to interrogate Briggs, telling him that if he told me the truth and gave me whatever had been passed under the door he would not receive a write up. Briggs assured me that there was nothing else. I then went and checked in Briggs's cell A104. While looking in the cell I was informed by DC42/Cpl. Evans that Briggs had appeared to put something around the area of the toilet before I was able to talk to him. I then noticed there was two folded up pieces of paper floating on top of the water inside the toilet. I retrieved them and brought them to Briggs. At this time I asked him why he lied to me. He only shrugged his shoulders and said he didn't know. I asked him what the pieces of paper were and he told me that he hadn't read them yet. The papers I found in the toilet matched the description of what Daems later told me had been passed. I have nothing further to report at this time. Briggs is in violation of:

MJV.00.02 Disruptive conduct:  
e) Making a false statement

Briggs lied about what Daems had passed him under the cell door. It should be noted that the Inmate Manual lists this offense as a major, however I am making it a minor. Briggs will not be able to receive commissary until July 20, 2015. I have nothing further to report at this time.

## Offense Details

On July 8, 2015 at approximately 1500 hrs I, Officer Porter DC 51, was working West housing at the Gallatin County Detention Center and found Inmate Briggs, Kevin #29033 repeatedly pushing the cell Intercom button while I was doing a round and Officer Moorhead DC62 was working the Sub control station. I had warned Briggs the previous day about the misuse of the intercom. I told Briggs if he continued this behavior he would receive a write up. When he continued to misuse the intercom today after being told not to and directly influencing the safety and security of the facility I went into Apod and told Briggs he was receiving a write up and that if he continued this behavior he would receive more write ups. He is in violation of MNV.S.22 (h) not following direction from staff. Briggs will be on DISC. for 23 hours. I also told Briggs if his behavior continued he would lose privileges and be on a behavior management plan if he continued the behavior he was threatening.
